Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

5.0.0

DETAILED ACTION

1. Claims 13-23 are pending. Claims 1- 12 have been cancelled.
2. This action is in response to the Amendment filed May 27, 2005.
3. Based upon Applicant's Remarks, the rejections under 35 USC 112, 2nd paragraph are withdrawn. However, new rejections follow.
4. Based upon Applicant's Remarks, the rejection of obviousness-type double patenting rejection over US Patent 6602882 is withdrawn.
5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 13-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - A. At claims 13-18 and 21-23, the radicals Z⁴ and Z⁵ are not defined.Correction is appreciated.
 - B. Claims 19-20 improper depend upon claim 13. See the definition of Z⁴ and Z⁵.
 - C. At claim 22, the phrase " particularly, in man" is generic and subgeneric which is improper.
 - D. At claim 23, a period is needed at the end of the claim.
7. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent

and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

8. Claims 13-23 are again provisionally rejected under the judicially created doctrine of double patenting over claims of copending Application No. 10/477,900. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

In the office action mailed January 21, 2005, see the reasons of record.

9. Claims 13-23 are again provisionally rejected under the judicially created doctrine of double patenting over claims of copending Application No. 10/484,563. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.

The subject matter claimed in the instant application is fully disclosed in the referenced copending application and would be covered by any patent granted on that copending application since the referenced copending application and the instant application are claiming common subject matter, as follows:

In the office action mailed January 21, 2005, see the reasons of record.

10. Applicant's arguments have been fully considered but they are not persuasive.

Response to Applicant's Remarks About the Obviousness-Type

Double Patenting Rejection

Applicants state that Application Number 10/477900 has a provisional filing date of May 25, 2001 which is subsequent to the international publication date (April 20, 2000) of the instant application. Accordingly, Applicants believe that an obviousness-type double patenting rejection might not be a proper rejection to make in this application, and will leave the matter here for the Examiner's further consideration.

It is the Examiner's position that:

- The date of the international publication date is irrelevant to the rejection of obviousness-type double patenting.
- A double patenting rejection of obviousness-type double patenting is analogous to the nonobviousness requirement of 35 U.S.C.103 except that the patent principally underlying the double patenting rejection is not considered prior art.
- See MPEP 804.

Art Unit: 1625

- The rejection under the judicially created doctrine of double patenting over claims of copending Application No. 10/477,900 is maintained.

Applicants state that Application Number 10/484563 has a provisional filing date of May 25, 2001, which is subsequent to the international publication date (April 20, 2000) of the instant application. Accordingly, Applicants believe that an obviousness-type double patenting rejection might not be a proper rejection to make in this Application, and will leave the matter here for the Examiner's further consideration.

It is the Examiner's position that:

- The date of the international publication date is irrelevant to the rejection of obviousness-type double patenting.
- A double patenting rejection of obviousness-type double patenting is analogous to the nonobviousness requirement of 35 U.S.C.103 except that the patent principally underlying the double patenting rejection is not considered prior art.
- See MPEP 804.
- The rejection under the judicially created doctrine of double patenting over claims of copending Application No. 10/484563 is maintained.

11. The Information Disclosure Statement filed May 27, 2005 has been considered.

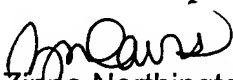

There is no teaching or suggestion in the prior art to modify the compounds to derive those instantly claimed. Accordingly, no rejections based upon prior art are made.
